2nd International Diabetesity and Metabolic Surgery Summit
October 25-27, 2022

Dear Colleagues

Following the success of last year's international summit, we will be holding the **2nd International Diabetesity and Metabolic Surgery Summit** for surgeons, physicians, endocrinologists, gastroenterologists, nurses, dieticians, hospital administrators, and others who have an interest in Diabetesity and Metabolic Remedies.

The focus of our forthcoming **IDMSS 2022** will be the relationship between obesity and type 2 diabetes and their associated complications and the beneficial results obtainable from metabolic/bariatric surgery. This summit is vital to increase the international knowledge of these procedures and stimulate the investigation and development of new and more effective treatments. The summit will bring together many of the world experts in the fields of metabolic surgery and medicine.

The program will be complemented with a professional exhibition, offering physicians an opportunity to take an active part, and for the exhibitors to collaborate with decision makers in many aspects of the field.

Sponsors, company representatives and professional organizations are cordially invited to participate in this important international event. The Summit is expecting over 300 participants. Your presence and contributions will enhance the overall value of the event.

The meeting website can be found at www.idmss.org.

Enclosed please find further details regarding the different sponsorship options available.

We hope that you will participate in this exciting Summit.

Sincerely,

Scott A. Shikora, MD

Nasser Sakran, MD
