

Dr. Paul Davidson serves as the director of Behavioral Services for the Center for Metabolic and Bariatric Surgery at Brigham and Women's Hospital in Boston and is an instructor at Harvard Medical School. He obtained a B.A. in Psychology from Brandeis University and earned his PhD in clinical psychology at Brigham Young University. His dissertation and much of his clinical work focused on eating disorders. Prior to coming to CMBS, he served as the Behavioral Director for the Weight and Wellness Center at Tufts Medical Center, where he was an Assistant Clinical Professor. He is a member of the American Society of Metabolic and Bariatric Surgery and is an elected member of the Integrated Health Executive Council. Dr. Davidson speaks internationally about bariatric topics and heads the behavioral section of the annual Bariatric Summit. He is an associate editor for the Obesity Surgery journal and a reviewer for multiple scientific journals. He has become very involved with Twitter and helps head the #obsm chats, focusing on topics related to bariatrics, obesity, diabetes, psychology, exercise, and motivation, and can be found at @PaulDavidsonPhD.
